

List of Things for the Project

3D Modeling Needs

- **Characters**
 - Main Lego soldier (rigged for animation) (Wanting to buy a pre-made full rig and customize it)
 - Simplified background soldiers
- **Environment**
 - Kid's bedroom (bed, desk, toys, etc.)
 - Tall modern or historical buildings
 - Rubble and debris on the streets
 - Military-style SUV
 - Tank
- **Props**
 - Lego AR
 - Lego Sniper with suppressor
 - Lego shemaghs
 - Lego Helmet

Animation

- **Characters**
 - Soldier: Running, dodging, getting into the car, wounded crawling, shooting.
 - Facial expressions: At minimum, for the main character.
- **Objects**
 - Car movements: Driving, crashing.
 - Tank turning
 - Bullet flying through the air (slow motion)
- **(Camera movements:** Pans, zooms, tracking shots to simulate POV.)

Video Footage

- **Live Action**
 - anyone playing with Legos.
 - Closeups of hands interacting with the toys.
 - Potentially, POV shots of the battlefield if you want them mixed with animation.
 - Sniper POV shots (Could be live-action with scope overlay or entirely animated)

VFX

- Explosions (tank, car)
- Muzzle flashes from guns
- Smoke and dust
- Bullet trails (if stylized)
- Sniper scope overlay (for POV shots)

Audio

- **Sound Effects**
 - Gunfire (variety to match weapons used)
 - Explosions (small and large scale)
 - Car sounds, crashes, engine struggles
 - Debris impacts
 - Ambient city sounds: distant crowds, traffic IF you're using a modern setting.
 - War-torn atmosphere IF that's your environment.
- **Dialogue**
 - Soldier
 - Sniper
 - Kid
 - Mother
- **Music**
 - Consider tense, dramatic themes, or something more playful, depending on the overall tone you want to establish
